July 27, 2021

To the JBMA Community:

I hope this letter finds each of you doing well. Summer is quickly coming to an end and our first day of school is right around the corner.

### A few dates to remember:

<b>Monday, August 9, 2021</b>	Orientation Day – meetings will start in the gym; parents will have time to visit classrooms
<b>Tuesday, August 10, 2021</b>	First day of school – all levels

### Operating Hours:

The school will be open for early drop off starting at 7:30 AM daily. Students can remain on campus until 4:00 PM daily. All students must be off campus no later than 4:00 PM daily. No exceptions can be made to this. Our teachers need time to clean and sanitize the classrooms.

### Guidance regarding vaccinations and masking:

Following CDC guidelines, newly published guidelines from the American Pediatric Association, and advice from local physicians, **the school will require masks for all unvaccinated individuals while indoors.** This includes any adult who is not vaccinated and all students under the age of 12 (90% of our student population).

**Based on the newest CDC guidelines, vaccinated individuals will also be required to wear a mask while indoors.**

### Guidance regarding the school being made aware of a positive COVID-19 test result for a staff member or student:

- We will follow the latest guidelines from the CDC and local health departments.
- Parents in the affected class will be notified of the need to quarantine.
- The school will also share the last date of exposure so we can calculate quarantine days and parameters for return.
- Parents will have the option to have their child tested during the quarantine period.
- Students can return to the classroom 7 days from the date of last exposure **IF** they have a negative COVID test **AND** they are symptom free. The negative test result must be dated 5 days after the date of last exposure.
- Students can return to the classroom 10 days from the date of last exposure without needing a negative COVID test **IF** they are symptom free.
- The individual who originally tested positive can return to the classroom after 10 days **WITH** a negative COVID test **AND** they are completely symptom free.

### Efforts the school will use to mitigate the effects of COVID-19:

As we continue to focus on the health and safety of our entire school community, please be aware of COVID protocols kept in place for the 2021 -2022 school year:

- Indoor mask usage.
- Physical distancing when possible.
- Frequent handwashing.
- Regular cleaning of classrooms and common areas.
- Use touchless faucets, automatic paper towel and automatic soap dispensers in all restrooms.
- Use of automatic and pump hand sanitizer stations in all buildings.
- Air purifiers are in place in all classrooms, including the gym, lunchroom, and library.
- All HVAC systems school-wide are being serviced to ensure proper ventilation.

### Discontinued mitigation measures:

- Daily health screenings will not be used.
  - You are the best screening protocol. **Please do not send your child to school if they are sick or showing signs of illness.**
- Virtual learning options: Due to limited resources, the school will not be able to offer full-time, part year, or hybrid virtual options for students. We will however be able to support virtual learning in the event a student group needs to be quarantined.

The school is ready to respond to the ever-changing landscape moving forward. As new guidelines are published, we will update our school community with any changes to our procedures.

I thank you for your support of our school and for trusting us with the education of your child. We are all looking forward to another great school year!

Sincerely,

Anthony Marino  
Head of School
